*It's All About the Chocolate!*

While satisfying your chocolate cravings, TRŪ Chocolate™ satisfies the appetite. In addition to assisting in promoting healthy blood sugar levels, TRŪ Chocolate™ also contains ingredients believed to promote healthy, beautiful skin and healthy teeth.\*\*

Unlike most other sugarless chocolates, TRŪ Chocolate™ is sweetened with *glycemic-friendly* Xylitol. A natural sweetener, Xylitol is believed to prevent tooth decay bacteria, making TRŪ Chocolate™ safe for your dental health. While it does not raise blood sugar levels, Xylitol is used by the body to produce energy. No added sugar.

*The TRŪ Chocolate WOW Factor*

TRŪ Chocolate™ is a functional food with a WOW factor! You may hear "WOW" or "THAT IS SO COOL" after you give a person a TRŪ Chocolate™ piece and then ask them to drink 16 ounces of cold water afterwards. The WOW factor: Many people can taste the chocolate flavor for as long as 30 minutes after eating a single piece of TRŪ Chocolate™!

The lasting chocolate taste comes from three special ingredients:

1. Xylitol, a natural sweetener, helps create the long-lasting chocolate taste.
2. The Bioperine®, a patented phytonutrient and natural thermotrient, is a derivative of black pepper and enhances the perception of taste. Many people find anything that they eat or drink after eating TRŪ Chocolate™ will have enhanced flavor.
3. The Fabenol®, a derivative of lentils, helps increase the sensation of sweetness. It is also a natural carbohydrate blocker!
